HTT 2020

Definition

ntractual and rating agencies minimum requirements is a nominal nding amount of eligible assets (substitute assets and accrued covered bonds (after taking into account interest rate and currency

he rating agencies, is disclosed the highest one.

sets amount (including accrued interests, substitute assets,

ued incomes on derivatives) by the amount of privileged debts,

ms due on derivatives and collateral management fees).

ne cover pool using guaranteed loans, the amount of the guaranteed loans, nt of the eligible assets pledged as collateral.

bond legal framework for sociétés de credit foncier (SCF),

) that came into force on 28 May 2014 (published in JO nº0123 of 28 May 201), 25% of non-privileged resources and the legal minimum collateralisation

o is calculated a posteriori on the basis of the audited accounting

June 30th and on unaudited accounting figures as of March 31st

and available within a period of three months following the calculation date.

nnal /unaudited when the report is published.

order to reassure Rating Agencies.

F are mainly Fixed interest rates, and also Floating interest rates.

G SCF are mainly Fixed coupon, and also Floating coupon mainly based on EIBEUR3M. mainly Floating interest rates.

g a zero prepayment scenario on the cover pool assets.

s, contractual maturity is calculated according to the legal final maturity.

ol assets are calculated assuming an average percentage of

of cash and term deposits to financial institutions, their expected actual one.

rities" : see above. vered Bonds. vered Bonds emission since 2015.

Hedging Strategy (please explain how you address interest rate and currency risk)

HG.1.12

Interest rate risk :

and any change in interest rates subsequently has a parallel effect on Société Générale SCF's assets and liabilities. detailed over the next 15 years with monthly gaps over the first six months and then annual gaps over the following years.

<u>Currency risk :</u>

As a result, Société Générale SCF is not exposed to foreign exchange risk through its issues.

		As a result, societe denerale set is not exposed to foreign exchange risk through its issues.
HG.1.13	Non-performing loans	There are no non-performing loans in the cover-pool of SG SCF.
	2. Reason for No Data	Value
HG.2.1	Not applicable for the jurisdiction	ND1
HG.2.2	Not relevant for the issuer and/or CB programme at the present time	ND2
HG.2.3	Not available at the present time	ND3
	3. Glossary - Extra national and/or Issuer Items	Definition
		Covered bond issuer ratings :
		The rating agencies' methodologies usually take the senior unsecured rating of a covered bond issuer's
		parent company as a starting point for their assessment of the credit risk of covered bonds.
		However, instead of refering to the parent company rating, some rating agencies may issue a "covered bond
HG.3.1	Other definitions deemed relevant	issuer rating" which is an assessment of the credit quality of a CB issuer's credit quality on an unsecured
		basis. Generally, a "covered bond issuer rating" is the same as the senior unsecured rating of the CB
		issuer's parent company although it may be different in some specific cases.
		If no "CB issuer rating" has been granted to the CB issuer, "NA" is indicated.
		Core Tier 1 ratio (%) :
OHG.3.1		Core Tier 1 is the Common Equity Tier 1 ratio - CET1 calculated for Bale 2,5
		Covered bonds and cover pool:
		<u>Guaranteed loans :</u>
OHG.3.2		The eligible assets, fully composed by public sector exposures, are transfered into the cover pool using
		guaranteed loans (i.e. collateral directive framework). The outstanding amount of the eligible assets pledged as
		collateral of the loans are indicated instead of the amount of the guaranteed loans.
		The nominal outstanding amount of the eligible assets is booked in Off-Balance Sheet as guarantee received.
		Substitute assets :
		Are reported the amount of substitute assets (accrued interests excluded) as defined by the French Law
OHG.3.3		(Articles L515-17 and R515-7 of Code Monétaire et Financier). For SG SCF the subtitute assets are composed of
08.3.3		cash and deposits to its parent company. The outstanding amount is booked in Assets - Balance Sheet as
		amounts due from credit institution. These substitute assets are included in the calculation of the legal coverage
		ratio but not taken into account in the nominal rating agencies overcollateralisation ratio.
		Accounting assets not included in the cover pool:
OHG.3.4		Are not included in the cover pool the guaranteed loans (replaced by the eligible assets pledged as collateral)
		and the prepayments and accrued income on derivatives.
		<u>Covered bonds :</u>
OHG.3.5		Nominal amount of covered bonds (accrued interests excluded) in euro equivalent after taking into account the
		cross currency swaps.
		"Of which eligible to central bank repo-operations" :
		The outstanding amount of eligible assets including replacement assets shall be filled in.
		If the eligible assets are transferred into the cover pool using guaranteed loans (i.e. collateral directive
OHG.3.6		framework) or mortgage promissory notes, the outstanding amount of the eligible assets pledged as
		collateral of the notes or loans should be indicated instead of the amount of the guaranteed loans.
		The eligibility criteria to central bank repo-operations include the exceptional measures accepted by the ECB in February 2012
		and presently in use with the Banque de France

Société Générale SCF has a strict policy of neutralising interest rate risks. With this aim in mind, entering into ad hoc hedging swaps establishes a fixed margin on issuance,

- The structural interest rate risk is measured with the help of "gaps" calculated based on the "Liability-Asset" situations of Societe Generale SCF with production halted,

For USD issues, Societe Generale SCF has eliminated the exchange rate risk by implementing EUR/USD financial hedging swaps.
