	3. Reason for No Data	Value
HG.3.1	Not applicable for the jurisdiction	ND1
HG.3.2 HG.3.3	Not relevant for the issuer and/or CB programme at the present time Not available at the present time	ND2 ND3
10.5.5	4. Glossary - Extra national and/or Issuer Items	Definition
		Covered bond issuer ratings :
		The rating agencies' methodologies usually take the senior unsecured rating of a covered bond issuer's parent company as a starting point for their assessment of the credit risk of covered bonds.
HG.4.1	Other definitions deemed relevant	However, instead of refering to the parent company rating, some rating agencies may issue a "covered bond issuer rating" which is an assessment of the credit
		quality of a CB issuer's credit quality on an unsecured basis.
		Generally, a "covered bond issuer rating" is the same as the senior unsecured rating of the CB issuer's parent company although it may be different in some specific cases.
		If no "CB issuer rating" has been granted to the CB issuer, "NA" is indicated.
		Core Tier 1 ratio (%) :
		Core Tier 1 is the Common Equity Tier 1 ratio - CET1 calculated for Bale 2.5.
OHG.4.1		Covered bonds :
		Nominal amount of covered bonds (accrued interests excluded) in euro equivalent after taking into account the cross currency swaps.
		Guaranteed loans :
OHG.4.2		The eligible assets, fully composed by public sector exposures, are transfered into the cover pool using guaranteed loans (i.e. collateral directive framework).
		The outstanding amount of the eligible assets pledged as collateral of the loans are indicated instead of the amount of the guaranteed loans.
		The nominal outstanding amount of the eligible assets is booked in Off-Balance Sheet as guarantee received.
		Substitute assets :
		Are reported the amount of substitute assets (accrued interests excluded) as defined by the French Law (Articles L515-17 and R515-7 of Code Monétaire et
OHG.4.3		Financier).
		For SG SCF the subtitute assets are composed of cash and deposits to its parent company.
		The outstanding amount is booked in Assets - Balance Sheet as amounts due from credit institution. These substitute assets are included in the calculation of the legal coverage ratio but not taken into account in the nominal rating agencies overcollateralisation ratio.
		Accounting assets not included in the cover pool :
OHG.4.4		Are not included in the cover pool the guaranteed loans (replaced by the eligible assets pledged as collateral) and the prepayments and accrued income on derivatives.
		<u>"Of which eligible to central bank repo-operations" :</u> The outstanding amount of eligible assets including replacement assets shall be filled in.
		If the eligible assets are transferred into the cover pool using guaranteed loans (i.e. collateral directive framework) or mortgage promissory notes, the outstanding
OHG.4.5		amount of the eligible assets pledged as collateral of the notes or loans should be indicated instead of the amount of the guaranteed loans.
		The eligibility criteria to central bank repo-operations include the exceptional measures accepted by the ECB in February 2012 and presently in use with the Banque
		de France.
